Program

The program is divided into two segments.

For each morning you will be provided with a series of articles as pre-reading. These articles will relate to the topic for presentation and subsequent discussion that evening.

The evening sessions are designed to be small group and interactive. So we are keen to encourage active participation from all our delegates. Please come prepared to engage in the conversation.

The pre-reading is estimated to require 2 hours of time. The evening sessions will run from 17:00 - 19:30 although times will be flexible dependent on the overall days activities.

The facilitator for each session will be announced shortly
